Handle for

"Rough Boy" A-0010

► Benefits from our cold solutions

- ATEX-Certified by Gexcon Certification
- No need for Hot Work Permit
- Less demanding risk evaluations
- No job postponements
- No need for habitats
- No need for fireguards
- No Hot Sparks
- No dangerous sharp splinters
- Low heat (30–60°C average)
- Low vibration – (2.5 m/s average)
- Low noise levels (80–85 dB average)
- Average Roughness Profile of 40–75 microns
- No release of isocyanates when grinding or cutting through polyurethane.
- Disks and files are harder than an Industrial Diamond

Training

Safety Tools Allmet conduct free training at our workshop in Sotra, Norway, or online after agreement. Contact sales@safetytools.no

This applies for both grinding and cutting tools.

Local authorized importers also conduct training certification.
